

FINISH THOMPSON INC.

DRUM PUMP Accessories

Drum Pump Motor Adapters

Need the high performance offered by a PF Series drum pump, but want to use your existing motor?

Finish Thompson offers specially developed adapters that allow the PF Series drum pump tubes to couple to a competitor's motor.

FTI motor adapters let the customer keep their existing motor while getting the benefits of a high performance FTI pump tube, preventing waste and saving money.

Three easy steps:

Step 1

Select the correct motor adapter.

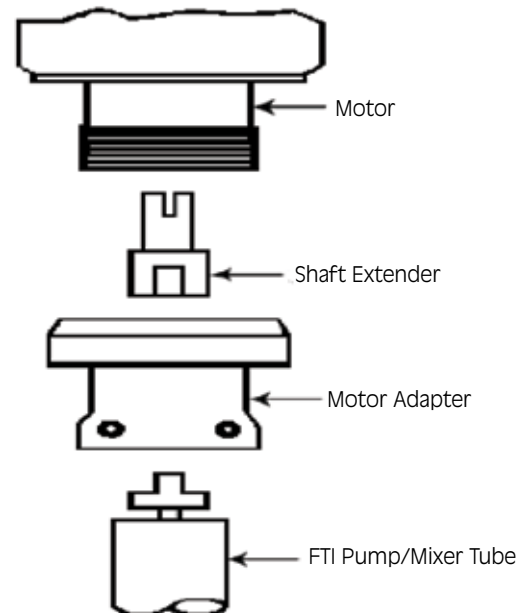

Step 2

Install the motor adapter between the competitive motor and the selected PF Series pump tube.

Step 3

Pump is now read to use.

Consult FTI if customer is pumping flammables.

If you have...
