The Most Trusted Name in Pumps and Meters

HIGH-FLOW PRODUCTS

**The FR3200 Pump for your most
remote and mobile applications.**

Made in

USA

THE FR3200 MAKES YOU MOBILE FOR ALL YOUR APPLICATION NEEDS.

With the fastest flow rate of any DC fuel-transfer pump on the market, our all-new FR3200 Series Pump makes filling tanks at remote job sites quicker and more efficient. Delivering up to 25 gallons per minute, the FR3200 can fill a 500-gallon tank in just 20 minutes. That means less downtime, greater productivity, and more reward for your hard work. And it's built strong to provide long-lasting reliability in the most demanding off-road environments.

The FR3200 Series offers two options: the FR3204 (pump only) and the FR3210B, which includes a 1-inch ultra-high-flow automatic nozzle and an 18-foot, 1-inch hose with a static wire.

Speed, mobility, flexibility, reliability—the FR3200 brings it all to the job.
