

Service Kit 37040-0000

TOILET SERVICE KIT – UPGRADE NOTICE

This Service Kit contains a new Up-Graded Plastic Wearplate with improved Waste Pump and Rinse Water Pump Shaft Seal. This new seal provides better fluid separation between the Centrifugal Waste Pump and Flexible Impeller Rinse Water Pump.

The new Wearplate Kit supercedes the old Brass Wearplate and its associated Brass Sealing Sleeve and O-Ring. It also supercedes early Plastic Wearplates with

1/2" ID Counterbore around the shaft hole and its associated small flat Rubber Sealing Sleeve. The new Wearplate eliminates the need for the thin Stainless Steel Wearplate and a second Paper Gasket required with this Wearplate. It uses a Square Section O-Ring to seal the pump assembly to the Toilet Base, eliminating the need for the Square Rubber Gasket with 3" round center hole used on very early toilet production.

OLD PARTS ELIMINATED

Square Rubber Gasket

Brass Sealing Sleeve
O-Ring

Brass Wearplate

Paper Gasket

Stainless Steel Wearplate

1/2" Rubber Sealing Sleeve

Plastic Wearplate With 1/2" Seal Recess

NEW PARTS ADDED
