

Jabsco Marine Toilets

Important reminder of changes to part numbers

Dear Valued Customer,

This letter is to remind you that we will soon be supplying our new range of Jabsco toilets and updated part numbers.

What does this mean for you?

We have changed the ceramic bowl across our range which now features a more modern design with improved flushing efficiency and styling. We have updated our packaging to better protect the product during transit and included larger carton labels to clearly show product information and part numbers. Premium Soft Close Seats are now available on all Regular size bowls.

Below you will see a table showing the current part numbers and their new replacements, our system is set up to ensure you do not make a mistake when ordering. All new part numbers will automatically replace the existing one.

For example: If you order **29090-3000**, our system will replace it with **29090-5000**.

New Part Number	Description	Replaces Model	Bowl Size	Seat & Lid
29090-5000	Manual Toilet	29090-3000	Compact	Wood - Standard Close
