1A-MD, AC-1A-MD

1C-MD, AC-1C-MD

1U-MD

1A-MD-3/8

MODEL ABBREVIATIONS:

A = Smooth Inlet/Outlet, C = Threaded Inlet/Outlet, U = Screen Inlet, MD = Magnetic Drive
 AC = Expose Skelton Motor

DESCRIPTION: Series 1 are centrifugal magnetic drive pumps, eliminating the need for a shaft seal. These pumps can be serviced with a screwdriver. The models 1A-MD, 1C-MD, and 1U-MD are hermetically encapsulated, which allows the pumps to run fully submerged in many liquids or in open air for complete moisture protection. See the repair parts list for a breakdown of replacement parts.

1A-MD-1/2

OPERATION:

These pumps are not self-priming, lack a suction lift, and thus require a **flooded suction**. These pumps **cannot be run dry** because the impeller requires the liquid being pumped for lubrication. For application assistance, contact March Pump.

ELECTRICAL:

Motors are available in different electrical configurations such as 115V 50/60Hz, 230V 50/60Hz, or 115V 60Hz, 1 phase, and rated as continuous duty. All cord sets are U.L. LISTED 18/3 wire SJT plastic. The motors (#26 & #27) are C.S.A. approved under File NO. 40072. The models 1A-MD, 1C-MD & 1U-MD are U.L. Recognized under the U.L. component program. U.L. Recognition On Pumps Is For Water Only.

1C-MD

1U-MD

NOTES:

All specifications & data are based on pumping water & are intended as a guideline only. Specifications may vary with different motors.

NOTE: Contact Factory for other materials and/or parts not listed.

Legend: S = Standard, O = Optional

MATERIALS IN CONTACT WITH SOLUTION:

Polypropylene, Nylon, Buna N, 316 Stainless Steel, Ceramic Magnet, and Carbon/Teflon washer.

When epoxy pumps are submerged the following additional materials are in contact Epoxy, Noryl, Cycolac, Delrin, and SJT cord.

LIMITED WARRANTY: March pumps are guaranteed only against defects in workmanship or materials for a period of one year from date of manufacture pumping water. For the complete warranty and to register online go to www.marchpump.com/warranty-registration
